WHITEPAPER

About Us:

“Pep X ManCity is a decentralized fan token that aims to empower and guide holders towards wise financial choices while incorporating the fun of being a Manchester City fan. It will help Manchester City fans unlock VIP experiences with their favorite Manchester City players, earn official merchandise, and more. Holders will also be able to purchase exclusive Manchester City items through our household DApp by using the token.”

\$PEPMCITY Significance

“Sports have always been an integral part in many nations’ cultures, especially football. Football and cryptocurrency are usually not paired together, and if they are, the token and its features usually fail to accommodate the wants and needs of their holders. So, our team, a bunch of Manchester City diehard fans, decided to band together to make sure to give the best experience to fellow fans in both football and cryptocurrency.

Leveraging in the new ERC-20 network will allow faster, safer, and highly literated users. The Ethereum blockchain technology is the best network with the highest stability. Through the use of the DApp, holders will be able to purchase merchandise from Pep ManCity by using \$PEPMCITY.”

Features

“Pep x ManCity will provide these unique features:

- 1. safe and easy transactions using state-of-the-art blockchain technology**
- 2. unique fan token experience**
- 3. full usage rights of their assets**
- 4. community filled with ManCity super fans**
- 5. access to exclusive experiences with ManCity**
- 6. ability to make decisions that influence the team in ManCity”**

A celebratory image of the Manchester City football team. The players are arranged in several rows, with some wearing their light blue home kit and others in yellow training gear. In the center, a large golden trophy is being held. The background is a light blue sky with falling golden confetti and faint blue architectural lines. The overall mood is one of triumph and success.

Why do we need Pep x ManCity?

MAN CITY

PREMIER LEAGUE CHAMPIONS 2022/23

“With the ever-present love for football in all areas of the world and the growing influence of cryptocurrency, the market for the hybrid of these two is still unexplored and underdeveloped.

The team aims to change that by providing the means for super fans to have access to their favorites while also earning on the side.

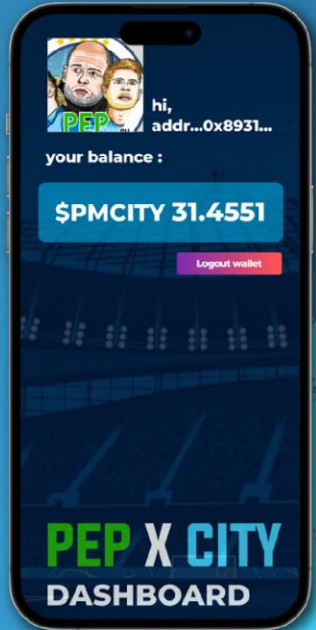

As a fan token, all the features of Pep x ManCity will cater towards fans. We know what they would like and with ample experience in cryptocurrency projects, we are sure to bring the best of both worlds to the market.

Further, with the incorporation of the DApp store, holders will be able to secure authentic merchandise without the need of using shady resellers that market them at a ridiculous price. It will allow holders to also sell their merchandise, which other customers can purchase through the household Pepe x ManCity store. The store will also house features in which holders can check the authenticity of the items they want to purchase or sell.”
